Dear Paul,

The collection of the documents is slow. I have some. I'll send them when I have all I can get so you will not be bothered by them piecemeal.

The real purpose of this letter is to tell you not to go to any trouble to get me a copy of Curry's book for I now have one. If you have gotten it by the time you get this, I am certain Garyxwould appreciate it.

There are some rather interesting things in it, with some no less interesting errors. The question I have is are these interesting things also errors. Wish I could be sure.

Do you know anything about the backgroun of the book.

Best Regards,

Harold Weisberg
